A superb 3-way screen speakers that is almost ready to use for Hi-End, with a perfect cinema response and ready to work as Left and Right channels (in vertical position) or as Center channel in horizontal position. Dedicated to the non-transparent screens lovers, or for Home Cinemas where the sound system must be seen.

This new Aurea 27 has been created for those who love to see their speakers, or for non-transparent screens. Its superb 3-way screen speaker delivering Hi-End quality and a perfectly flat response, with 725W power helped by an internal crossover fitted with Mundorf components. A very warm timbre, and a perfectly distributed mid-treble response thanks to the 70°x40° horn. It creates the best sound reproduction possible for professional medium/small sized high-end home theatre installations featuring Dolby 7.1, Dolby Atmos, Opensound, DTS-X or Barco Auro. Finished with a high resistance polyurea coating, Hi-End connectors and front trim lacquered finishing. This model can be work in vertical or horizontal position rotating the mid-treble horn.
